Declaration Letter

To whom it may concern:

We, **Hangzhou Singclean Medical Products Co., Ltd**. with address located at No.125 (E), 10th Street, Hangzhou Qiantang Area, Zhejiang, China 310018, as the manufacturer of Respiratory Multiple Rapid Test Kit series, hereby make the following declaration:

Real-time stability studies of the Respiratory Multiple Rapid Test Kit series have been completed. Based on these studies, we confirm that the shelf life of this product series can be up to 36months when stored under standard conditions 4°C -30°C.

For the specific batch shipped, its production process is strictly identical to the validated batches used in the aforementioned real-time stability studies. Therefore, this lot officially supports a shelf life up to 36 months under standard storage conditions (4°C–30°C).

Based on the completed stability studies, the confirmed shelf life of this batch is 36 months from the manufacturing date, provided that the products are stored under the specified conditions (4–30°C). As the manufacturer cannot verify storage conditions after dispatch, we recommend using the products as soon as possible. This is a precautionary recommendation only and does not affect the confirmed 36-month shelf life.

Best Regards,

Production Manager: Ming Zheng
